### RETURNS:

No returns of furniture will be accepted without our written consent and shipping instructions. Special order items are not subject to return.

## DESIGN AND SPECIFICATIONS

Integra reserves the right to alter our product design for the purpose of construction improvement, change the price, dimensions or design of the products listed without notification. All dimensions shown are approximate. If critical specifications are required, please consult the factory.

### GENERAL PRODUCT SPECIFICATIONS:

Integra's products listed in this contract price list include these features:

- High Resilience Foam in All Seat Units
- DuPont's Dymetrol is the Suspension System in All Seat Units
- 16 Gauge Steel Tubular Inner Structure and Assembly Patented to Integra
- All Integra Bariatric products will pass a 1,000 lbs or 1,200 lbs drop test (2,000 lbs static load) depending on product series
- Product specifications for all product lines are available upon request

### LIFETIME WARRANTY:

Products manufactured by Integra after October 1, 2007 are warranted to be free of defects in material and workmanship under normal use for the lifetime of the product. Product must be properly assembled, maintained and in use by its original owner. Under the warranty, the obligation of Integra is limited to the repair or replacement of such furniture. Damage in transit or by negligence, abuse, abnormal usage, misuse, accidents or alterations nullifies the warranty.

As Buyer's sole remedy under this warranty, Integra, at its option, will repair or replace damaged parts at no charge to the original owner of record provided the replacement or return has previously been authorized by Integra under terms of this warranty. Normal aging and wear of fabrics, filling materials, and finishes are excepted from this warranty. Any labor charges incurred will be at the Buyer's expense. It is expressly agreed that this remedy of repair, replacement or credit, at Integra's option, is Buyer's exclusive remedy under this warranty. In no event shall Seller be liable for consequential damages.

All other express or implied warranties made by any sales representative, or agent, or other representative, including any warranty of merchantability or fitness for a particular use, are hereby excluded. Florenz and A-Chairs carry a 10 year warranty.

### FABRICS:

In order to fit the wide range of our customer's needs, Integra currently has partnerships and graded-in programs with these textile companies:

In offering a wide range of fabrics to our customers on our standard lead time, each product sent through production is a made to order item. Integra cannot be responsible for differences in color between covering material supplied and samples from which choice has been made, nor will Integra be responsible for matching upholstery for separate orders. Integra cannot warranty against wear, fading or performance of any covering material.

# ORDERING AND SPECIFICATIONS

## DESIGN AND SPECIFICATIONS (CONTINUED)

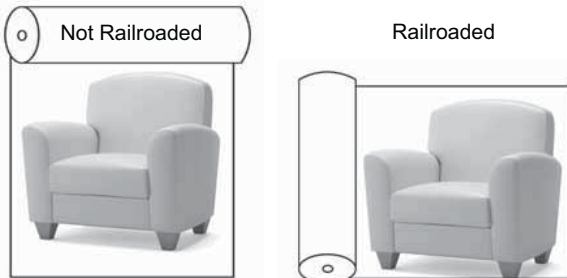

### COMBINATION FABRICS:

More than one fabric may be specified to be applied to the same product; pricing will reflect the proportion of the fabric grades involved. Integra does not charge for working with additional fabrics. Please send a clear drawing and description calling out placement of the fabrics, as well as labeled samples of each material, with your purchase order. Consult the factory for assistance.

### FABRIC APPLICATION:

Standard procedure is for Integra to match all fabrics that require matching such as plaids, prints, or stripes. If matching is not desired, this must be clearly noted on the purchase order. Integra will apply textiles to upholstered pieces in the manner which we deem to be the most appealing. Integra assumes no responsibility for the direction in which the textiles are applied unless clearly specified on the purchase order.

Standard procedure is for Integra to cut all fabrics non-railroaded unless otherwise clearly specified on the purchase order. To ensure correct cutting and application of the fabric, it is suggested that a clearly marked sample is sent with the purchase order when requesting a non standard application of the fabric. See the diagrams below for a visual description of non-railroaded vs railroaded applications.

### CUSTOMER'S OWN MATERIAL (C.O.M.) POLICY:

Integra will work with customer's own material with approval. This approval procedure must be followed. A memo sample of the fabric must be sent to the factory before the fabric can be approved. Following the approval, you will be advised of any additional yardage which may be required for your order and any upcharges for special handling and/or hand cutting. C.O.M. yardage estimates are based upon 54-inch wide textiles without pattern repeat. A swatch of your fabric should accompany the purchase order to properly identify your fabric when it arrives at the factory.

Please note that all C.O.M. fabrics must ship freight prepaid and should be properly labeled for your order. Ship to:

Integra, Inc.  
Tag for: (Your PO # of the order it is to be applied to)  
807 Wisconsin Street  
Walworth, WI 53184

The prices shown for C.O.M. include the product and only the labor for the fabric's application. The cost of the fabric is the customer's responsibility. The performance of any non-standard fabric is the responsibility of the fabric supplier. Integra is not responsible for delivery delays or for inspection of C.O.M.

## DESIGN AND SPECIFICATIONS (CONTINUED)

### WOOD FINISHES:

Integra cannot be responsible for differences in color or tone between the finish sample and final finished product. This difference is due to the variations in natural material and finish surface size.

### INTEGRA STANDARD WOOD FINISHES (ON HARD MAPLE & WHITE OAK):

- Natural
- Vanilla
- Ginger
- Cinnamon
- Nutmeg
- Chile
- Clove

### CUSTOM WOOD FINISHED (CWF):

Integra will accept custom finish orders. This could extend lead time. There is a \$265.00 NET flat fee upcharge for custom finish orders. An additional upcharge is possible depending on stain. Paint finish will not be accepted. Send a wood sample which will be matched and returned to you for sign off approval. When the approval is received by Integra, the order will be entered into production. Custom wood finishes are valid for 2 years.

### LAMINATE:

On Integra A-Tables, Rendezvous and Oak Park table tops, solid wood or wood veneer is standard. Laminate onlays can be specified on tops only, raised 1/16" above edge. Pricing for laminates falls into the following categories:

Standard Matching: add 5% to table price

Integra has chosen specific laminates to match our Standard wood finishes when possible.

Alternate: add 5% to table price

Other laminates that fall into the same grade as Standard.

Custom or Premium: Contact customer service for pricing

Other laminates – special order, higher grade, etc.

Orders with special laminates could have extended lead times. Please call the factory for details. For Tria Tables with Laminate – please contact factory for pricing. For Cube and Drum Tables, either veneer or laminate is standard.

### MOISTURE BARRIER:

A moisture barrier option is available for all styles of Integra seat units. A polyurethane layer is placed between the fabric and the foam to protect the foam from any moisture. There is an upcharge for this option; please see Standard Options page for current pricing and refer to the yardage requirements per item in price list.

### CALIFORNIA TB 117 AND 133 COMPLIANCE:

All Integra products with standard fabrics pass CA TB 117 fire code requirements, and are able to pass CA TB 133 using approved fabric and fire barriers. Contact factory for information regarding approved fabrics which meet the requirements of this technical bulletin. Application of fire barriers for TB 133 compliance requires an upcharge; see Standard Options page for current pricing and refer to the yardage requirements per item in price list. We cannot be responsible for flame retardancy of C.O.M. fabrics; please consult published technical data of fabric suppliers. Note: CA TB 133 option not available with leather.

# SHIPPING

## PACKAGING & SHIPPING

### FREIGHT:

All shipments over \$7,500 List include freight charges within the Continental United States.

Shipments made outside the Continental United States will be cartoned and shipped to the Port of Exit. Cartoning charges will apply; customer is responsible for freight charges from the Port of Exit to the final destination.

Integra's standard method is to set-up and blanket wrap furniture for shipping. This requires coordination with the freight company in order to meet and unload the truck at the destination. Furniture is assembled and will need to be inspected and set in place.

Integra will require receiving information at the time of the order and will advise estimated unloading time allotted for delivery. A loading dock to accommodate a 53' trailer is required for all shipments from Integra. Please note, improper loading dock at receiving point, lack of appropriate personnel to unload product and/or excessive unloading time will incur additional charges.

At time of delivery, blankets are removed and returned with driver. Inspection & damage must be noted within time allotted for unloading.

Should the freight company discover improper loading dock or inadequate personnel for unloading at time of delivery, the freight carrier reserves the right to have freight returned; this will incur reconsignment and reshipping charges which will be billed to the customer's account and will be due before the 2nd delivery attempt.

In certain cases, and as an option, we can carton our furniture for shipping. The following cartoning charges will apply:  
Carton Charges: \$30 NET per chair; \$45 NET per settee; \$60 NET per sofa.  
Tables: \$30 NET up to 24x24x24 in size, \$45 NET up to 36x36x36 in size and all oval, half oval and rectangular tables. 42x42 and 48x48 tables will be blanket-wrapped only; they cannot be cartoned.

If a shipment requires a specific day of delivery or time-specific delivery, additional charges will be applied by the freight company which will be added to your invoice. Shipments to New York City and Washington metro areas will also incur additional expenses from our freight carriers. Please contact customer service for upcharges.

### MINIMUM ORDER CHARGE:

Shipments over \$7,500 List include freight charges within the Continental US  
Shipments under \$7,500 List will incur a \$250 Net Freight Charge

### FREIGHT DAMAGE CLAIMS:

All Integra products are carefully inspected prior to shipment from the factory. Title to products is passed to the purchaser and Integra's responsibility ceases when the shipment is accepted for transportation by a carrier. Freight claims are the responsibility of the customer. All shipments should be carefully inspected before acceptance and the customer MUST record any damage on both copies of the freight bill, signed by the customer and the driver. Concealed damage reports must be made to the carrier within 10 days after delivery or the carrier will not be responsible. All packing materials involved in a damage claim must be saved in their original condition until they have been inspected by the proper agent.

### STORAGE:

If a customer is unable to accept delivery of merchandise when Integra is ready to make a shipment, Integra reserves the right to transfer merchandise to storage. Transfer to storage and storage charges will be at customer's expense. Transfer to storage shall constitute delivery for all intents and purposes, including invoicing and payment.

**INTEGRA SYSTEM SPECIFYING**

Integra systems are listed separately from the freestanding product of each series throughout this price list. The components are specific to the model and are all shown within the systems sections. Each system arm, system seat, and system table has a specific item number. System arms must have placement specified as shown below, and system tables must specify choice of edge and leg details.

WHEN SPECIFYING SYSTEMS, ALWAYS ITEMIZE COMPONENTS AS YOU STAND FACING THE CONFIGURATION. BEGIN YOUR LAYOUT AT THE LEFT AND END AT THE RIGHT.

System arms use an alpha designation which describes their placement:

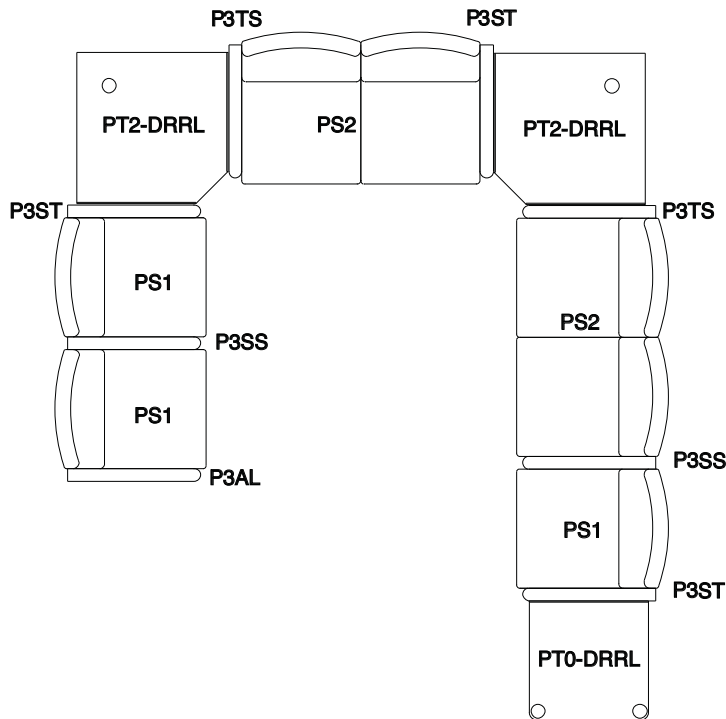

- "SS" is for Seat-to-Seat Connection
- "ST" is for Seat-to-Table Connection
- "TS" is for Table-to-Seat Connection
- "AR" is for Arm Right
- "AL" is for Arm Left

EXAMPLE:

- P3AL Pyxis #3 Arm Left, beginning a layout, connecting to a Seat Unit.
- P3ST Pyxis #3 Arm with a Seat Unit connection on Left and a Table connection on Right.

The seat unit and table components are shown in each system area of this price list.

All System orders require a layout at the time of order. This is to ensure you are ordering all components necessary for that layout.
